Summary

Progress driven and highly adaptable person who's passionate about learning and implementing the latest and greatest technologies. I enjoy expanding on what I learn through the creation of beautiful and responsive applications. I'm seeking the opportunity to develop and contribute to a professional environment.

Technical Skills

Front End	Back End	Testing	Toolkit
JavaScript ES6+	Node.JS	Jest	Git Version Control
CSS3/SCSS/SASS	Express.JS	Mocha	Heroku Deployment
React.JS//Redux	MongoDB		Webpack
React Native	Mongoose		Babel
Vue			NPM

Project Experience

Track Expenses App | JavaScript ES6+, React.Js, Redux, SASS, Jest | Github | Demo
Front End Developer   December 2018

An expense management app that utilizes Google's firebase API for user authentication and data storage. *Mobile-friendly!

- Executed a scalable and maintainable React & Redux front-end in ES6, with Babel and Webpack.
- Crafted SASS/SCSS styling files written with BEM naming conventions.
- Organized tests for complex React/Redux components with Jest framework.

IveyIM | NodeJs, SocketIO, jQuery, MoustacheJs, Mocha | Github | Demo
Full Stack Developer   January 2019

A chat app that uses socket.io web sockets for instant messaging, chat rooms, and the Google Maps API for location sharing. *Mobile-friendly!

- Implemented backend events and a server via NodeJs and ExpressJs.
- Utilized jQuery to handle events and event methods.
- Authored Mocha test for NodeJs and JavaScript functions.

Decision Maker | ReactJs, SCSS, ES6+JavaScript | Github | Demo
Front End Developer   August 2018

A SPA utilizing modern JavaScript and React for a smooth UI. *Mobile-friendly!

- Utilizes ES6 JavaScript for local data persistence and scalability.
- Integrated SASS styling sheets into maintainable React components.
