# Malachi Ivey

iveyweb@gmail.com | (404)-543-1574 | Atlanta, GA
malachiivey.com | github.com/zarekivey | linkedin.com/in/malachiivey

Progress driven and highly adaptable person who's passionate about learning and building with the latest and greatest technologies. I'm seeking the opportunity to develop in and contribute to a professional environment.

## Software Development Skills

- Languages: HTML, CSS3, JavaScript , TypeScript, Python
- Frameworks: React, React Native, Redux, Vue, Bootstrap, Node, Express, Mocha, Jest
- Other: API Integration, Git Version Control, Wireframes, NPM, Webpack

## Software Development Portfolio

**Track Expenses** | https://github.com/zarekivey/trackexpenses                         August 2019
- Executed a scalable and maintainable React and Redux front-end in ES6 and the Jest testing framework.
- Used Googles Firebase API for user authentication and data storage.
- Crafted SASS/SCSS styling files written with BEM naming conventions.

**Ivey IM**  | https://github.com/zarekivey/ivey-im                                      January 2019
- Created backend events and a server with NodeJS and ExpressJs.
- Utilized Googles Map API to create a location-sharing feature,
- Authored Mocha test for NodeJs and JavaScript functions.

**Recipe App** | https://github.com/zarekivey/recipe-app                                   May 2019
- Built React components with advanced ES6 features like async and await and await use with recipe search API.
- Used Bootstrap to create a scalable and mobile-friendly UI.

## Professional Experience

**Freelance Frontend Developer** | malachiivey.com                                     May 2018 - Present
- Designed unique UI experiences for businesses in the Atlanta area. Products aimed towards converting visitors.

## Education

**Graphic Design**                                                                        May 2017
- Showcased mastery of Design tools by acquiring NOCTI & RICOH Certifications in Graphic Design.
